 Full text available: [pdf\(566.69 KB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#)

This paper discusses the interaction of web-based communication technologies (e.g., threaded discussion groups, synchronous chat forums, and file-exchange systems) with the values and objectives of participants as a type of information ecology in an online technical communication class. Rather than advocating a particular technology or configuration of technologies, the author suggests that instructors develop technology-rich online learning environments in which they and class participants can ...
